

Parallels Secure Workspace Product End-of-Maintenance and Support Policy

- Parallels Secure Workspace

Customers with a valid **Maintenance and Support (M&S)** contract are entitled to the product versions released during this period and product support on the supported versions.

Supported versions are the most current version of the software (N) and the release immediately before the current version (N-1).

Example:

If the current released version is Parallels Secure Workspace 5.6, only 5.5 and 5.6 are supported.

Any lower versions are no longer officially supported at that point.

End of support dates:

Version	Date
Awingu 5.4	23rd of October, 2023
Awingu 5.3	21st of June, 2023
Awingu 5.2	28th of November, 2022
