- Parallels Secure Workspace 5.4.2
- Parallels Secure Workspace 5.4.4
- Parallels Secure Workspace 5.3.3
- Parallels Secure Workspace 5.5.1

## **Resolution**

After navigating to the **Files** tab in the Workspace: in the toolbar above the overview of all the files and folders in the selected folder, there is a "Select all" button.

Also selection modifiers such as [Ctrl] and [Shift] should work similarly to Windows File Explorer.

This functionality is only available from version 5.3 onwards.
